CORPORATE SOCIAL RESPONSIBILITY

IMPLEMENTED ACTIONS

The VINEXPO ASIA - SINGAPORE plan to implement CSR initiatives during the show as part of our CSR approach to become carbon neutral by 2050. Here are some of our actions:

- The corks will be collected during the exhibition and their material will be reused. Wine and glass water bottles will be collected then washed and reused instead of being broken to be recycled.
- We provide the exhibitors with glasses.
- We will collect the spittoons and ice buckets at the end of the show.
- The Marina Bay Sands meets international standards of sustainable design, construction and operations.

ISO20121 Sustainable Events Management System Certification

Building and Construction Authority (BCA) Green Mark Platinum

GMIC Certification from The Green Meeting Industry

EarthCheck Bronze Benchmarked and Silver Certified

APEX/ASTM Venue Level One certification
